A community that provides optimal educational opportunity for our developing children, as well as continuing education for our recently arrived residents of Hawaii.children,	Respond to requests for assistance from the school administration, be active in helping keep the neighborhood a safe and desirable place to live	Explore how the school can assist families in developing financial literacy, to help empower better-practice choices for successful adulthood. future	The format of the survey is somewhat confusing, as what I write disappears, and is not retained on the screen such that I could proof read my comments. This particular response window retains what I am writing, but the others above do not have this feature.
I am concerned about attendance-I have many students that have a history of chronic absenteeism. We need to continue to try to reach these families. It's getting worse in my class.	I continue to do small group and offer extra help to those students that need it.	I feel we need to continue to build relationships	I appreciate the face masks and ppe's that are given to us. Thank you!
How do we increase attendance for those who are doing DL? They are at home.	Offer free food, childcare, entertainment and events.	Create relationships.	
Not many parents attended meeting, can the meeting be posted along with the slides on the website. Test scores and attendance are issues we still need to tackle.	NA	Stakeholder talk sessions - let the different groups freely talk and ask questions.	Glad it wasn't too long, it was a lot of information.
